

Bloom Technologies d.o.o. is a company that produces cooling cabinets for professional use, counters and parts for counters. We are located in the Free Zone Varazdin in the North-West of Croatia just 5 km East of the town of Varaždin and 80 km from the Croatian capital Zagreb. The location is well connected to the highway Gorican-Varazdin-Zagreb-Rijeka. Bloom Technologies d.o.o. was founded in the year 2003 as a sister company of Oprema d.d. Ludbreg from whom it has taken over part of the production program.

Our target is to become a leading European manufacturer of cooling cabinets for professional use and counters. The excellent geographical position allows us to become a important manufacturer for Central, West and East Europe.

All our efforts will be oriented in satisfying market needs for developing and production of products. For this purpose we are completely equipped with a flexible production in CAD/CAM technology. Special accent is made on the market research and development of new products. We frequently collaborate with our suppliers and follow latest trends in cooling technology. Achievement of our goals is based on tight cooperation with end users of our products which are optimised and long age. High motivation and flexibility of our employees in accepting and satisfying user's wishes reflects in many partner relationships and a high level of mutual trust.

The Science of Cooling

KING

KING 100

King 100 is a device that combines energy efficiency, flexibility, and functionality to provide you with an exceptional experience. It is available in versions with glass or solid doors, with legs or wheels. The device can be used with shelves, or if needed, the shelves can be removed to cool kegs (2x20l slim kegs). King 100 can be installed under the counter or if you prefer a freestanding unit, stainless steel top plate can be mounted on it.

KING 225

King 225 is a cooling device that will enhance your events and ensure an exceptional experience for all your guests! This freestanding device on wheels is perfect for all types of gatherings, providing complete flexibility and mobility. King 225 offers two types of doors - with and without a handle. In addition to the standard configuration that cools only the cold chamber, this device also offers the option of a cooling unit with an additional dry block. This means that you will be able to serve fresh and refreshing beer even from a warm keg. King 225 is your reliable partner for cooling at every event.

Product name: **KING 100**

Cooling power: **434 W**

Dimensions OD: **W: 60 x D:62 x H:83 cm***

Dimensions ID: **W: 50 x D:42 x H:68 cm**

Depth with opened doors: **118 cm**

Net weight: **60 kg**

Towers: **Max 1**

Capacity: **2 x 20L slim keg barrels (D=23.5 cm, H=57 cm)**

Cooling temperature: **0°C - 10°C**

* without towers

Product name: **KING 225**

Cooling power: **405 W**

Dimensions OD: **W: 65 x D:68 x H:108 cm***

Dimensions ID: **W: 53 x D:55 x H:76 cm**

Depth with opened doors: **125 cm**

Net weight: **75 kg**

Towers: **Max 2**

Capacity: **4 x 20L slim keg barrels (D=23.5 cm, H=57 cm)**

Cooling temperature: **0°C - 10°C**

* without towers

Options:

- Dry block cooling system - KING 225 only
