

Bloom Technologies d.o.o. is a company that produces cooling cabinets for professional use, counters and parts for counters. We are located in the Free Zone Varazdin in the North-West of Croatia just 5 km East of the town of Varazdin and 80 km from the Croatian capital Zagreb. The location is well connected to the highway Gorican-Varazdin-Zagreb-Rijeka. Bloom Technologies d.o.o. was founded in the year 2003 as a sister company of Oprema d.d. Ludbreg from whom it has taken over part of the production program.

Our target is to become a leading European manufacturer of cooling cabinets for professional use and counters. The excellent geographical position allows us to become a important manufacturer for Central, West and East Europe.

All our efforts will be oriented in satisfying market needs for developing and production of products. For this purpose we are completely equipped with a flexible production in CAD/CAM technology. Special accent is made on the market research and development of new products. We frequently collaborate with our suppliers and follow latest trends in cooling technology. Achievement of our goals is based on tight cooperation with end users of our products which are optimised and long age. High motivation and flexibility of our employees in accepting and satisfying user's wishes reflects in many partner relationships and a high level of mutual trust.

The Science of Cooling

wastecooler

wastecooler 1

wastecooler 2

wastecooler 3

wastecooler

Waste Cooler is a device for cooling waste, designed to prevent unpleasant odors and simplify the waste management process. Waste Cooler is equipped with a practical ramp with a magnetic holder that makes it easier to insert the bucket into the cooling chamber. The lid with a gas shock absorber ensures easy insertion of waste into the bin. The cooling unit is mounted on the right side, and by cooling, it slows down the decomposition of waste and reduces the unpleasant odors that are released in the process. The Waste Cooler is an indispensable tool for commercial and industrial environments that want efficient and hygienic waste cooling.

Dimensions OD: **W:78 x D:92 x H:130 cm***
 Dimensions ID: **W:68 x D:81 x H:109 cm**
 Depth with opened doors: **205 cm**
 Net weight: **90 kg**
 Capacity: **600 L**
 Cooling unit: **Additional**

*Closed top lid

Dimensions OD: **W:151 x D:92 x H:130 cm***
 Dimensions ID: **W:141 x D:81 x H:109 cm**
 Depth with opened doors: **205 cm**
 Net weight: **145 kg**
 Capacity: **1240 L**
 Cooling unit: **Additional**
